Build nest - sit for nests
about 3 miles beyond the CAVUTU
SUVA TO BRITISH COLUMBIA
which is about 5 miles north
of English Harbor - through
primary coconut to moss + scum
+ thick grass -

The Buka is (looks like) Climax
forest of Ohio - little undergrowth -
ferns, grass, some moss + scum -
one of high ground about 4-5
feet above the surrounding low
lagoonland area - for the
guano below each clearing

BLACK MONKEY

Ad in Buka with ~~egg~~ ^{egg}

most of many birds - saw
at least 30 nests + probably
are 100 or 50 - Local boy
climbed up + brought back an
old worn egg rotten but saw
nests all with eggs new + no
chicks - LIKE TO EAT THEM,
ACCESSIBLE, + NO ONE STOPS
THEM, and as easily as the boy
climbed the tree it is a wonder any
survive, saw an Ad fly in with
large branch probably cost bird's

GF - saw only a few at fly in
and - 2 imm roost down in
CASUARINA above PHIL'S HAUS
but wrens keep them as pets -
on perches beside house all
same stay as imm for this
summer (1967) on X-MAS -

Beg to hummer to be fed
& keepers feed them

Apparently do not eat them but
only as pets - have own colored
cloth streamers ~~as~~ fed around the
hummerous -

Most try to fly out when
+ when they get these birds

WHITE TERNS - fly in off shore
+ avoid the village - esp CASUARINA
not see we June 15

BLACK NODDY - fly in off shore
+ seen late nesting in DUKA
new RFB - saw about 10 &
estimate 100 $\pm$

PHIL PALMER -

B4 I $\sqrt{U}$ $\frac{RU}{16}$?

The wind that shakes the sombers &
rocks the mighty ships,
Has yet to make the
fair term release the wrench
it grips.

A friend of mine is an excellent fellow
but he has two characteristics;
Being he has the diplomacy of a
witty stag & the business principles
of a freighter J.D.

Why does the sea roar?
If you had as many crabs
crawling over your bottom, you would
also roar
